RE: District Achievement Update

BACKGROUND

At the last meeting the board was provided with a single page infographic codeveloped with SD 27 and the Ministry of education. Feedback on the report was collected and incorporated into a version two of this report.

DISCUSSION

Board will be provided with the updated version of the single page report for review and discussion with staff.

The board will also be provided with a district specific data set for current year attendance. Attendance is a key data set featured in the district strategic plan and school plans. It is a critical leading indicator for performance for all the metrics featured in the single page ministry report.

Across the district we are seeing high absentee rates that are concerning for both the current school year and future year reports. Discussion will include a detailed analysis of the data set and action plans for remainder of the school year.

RECOMMENDATION

None. For information only.
